The BVPY [Bhartiya Vaigyanik Protsahan Yojana] is an ongoing National level scholarship program for fellowship in science, initiated and funded by approved authorities of the department of science and technology, government of India and mutual educational investors of India or foreign supporters, to attract exceptionally highly motivated students of rural or urban regions with low financial eligibility and are not able to pay the amount of fees for high class and high level education but are able to pursue science education and make bright career in science, research and technology.

The Objective of the program is to identify extraordinary talents in academics and aptitude for research and technology of student; helping them will make them realize their academic potentials; motivating them to take up research and technology careers in science and will also ensure the growth of best scientific talents for development of country. The national scholarship program is for the welfare of students to pursue education in science, technology and research originated studies. Announced in January of 2019 by Dhananjay Sudesh Mankar in the glimpse of motivation towards Dr. APJ Abdul Kalam sir (former president of India / Indian Aerospace scientist). Real education enhances the dignity of a human being and increases his or her self-respect. If only the real sense of education could be realised by each individual when carried forward in every fields of human activities, the world would become a very better place to live in. The Bhartiya Vaigyanik Protsahan Yojana is to **encourage, enhance, empathize, embrace** and **emerge** students for scientific, research and technical fields for our country. Meritorious students which belong to economically weaker society are not able to get education as it will cost them more than livelihood, students with low financial conditions should get equal opportunities as they are able to take career in science. So as to provide those better opportunities for students in their higher education will enhance their employability and they will also get vast thinking and creating ability.

Selections of students are made from those filled application forms published and passed on official website (www.bvpy.in) or authorized offices physically located. After filling application form for scholarship exam applicant have to be present for the exam conducted as per guidelines, applicant scoring above 70% in the BVPY exam held will be further scrutinised by official authorities for eligibility perceptions. The awarded scholarship will be for academic preparations of student in science field after 10th standard. Special groups and committees are set up to screen the applications and conduct exam at various locations. Based on performance of the students, then the students will get short listed and called for interview in final selection for fellowship award. The scholarship awarded will be funded for scientific and research oriented studies of students in private and government institutes selected or associated in transparent manner by the concerned.

****Not given any kind of authorities to sell or grant exam question papers. If found so discourage the illegal offence of individual or group of individuals.***

About

The 'BHARTIYA VAIGYANIK PROTSAHAN YOJANA' is the scholarship program started in 2019 to encourage, enhance, empathize, embrace and emerge students of India to take opportunities in science, technology and research careers. The aim of the committee is to award scholarship to meritorious students which comes from financially lower sections but have the abilities to take scientific career ahead, so as to provide those better opportunities for higher education the grants are been approved for the students. The program is to assist students to realize their abilities and potentials, therefore the BVPY will ensure that the best scientific talent is groomed for research and technology growth in India. Generous fellowship is provided to the selected students up to pre-under graduation level. That it is for 11th and 12th standard studies in science, as the turning point in individual's life, the after school scholarship till pre-post-graduation or other will embrace students functioning. In addition, summer camps are to be organised in prestigious research and education institutions in India.

The organization has entrusted the overall responsibility of organizing and working of BVPY programs and examinations and other extracurricular activities to the management committee and advisory committee for overseeing the implementations. A core committee is setup to look after the aspects organised and worked under BVPY program. The availability of number of scholarships for students is fixed and limited; it is necessity to lay down preferences for selection of fellows. Inter-selection weightage is to be given to the poverty rather marks.

Below given points to be followed:

- The selection of candidates will be carried out solely on the basis of merits of qualifying examination, that is in 10th standard student should qualify with merit expectations/result.
- If there is any vacant seat of the any one from the reserved category (SC/ST/OBC/etc.) the same scholarship award will be transferred to General category.

- There will be no merit list or application for renewal cases after approval of the grant submission.
